Approximately half a million Pennsylvanians live in manufactured housing (aka “mobile homes”). Many live in land-lease communities, where they own their home but rent the land it sits on.

Owners in land-lease communities are threatened by:
- Rent increases
- Communities being closed and sold for “development”
- Underinvestment in community services that make life less safe, sanitary, or pleasant

Some of Your Rights as a Homeowner
- “Good Cause” eviction
- No entrance or exit fees
- The right to social and business visitors
- The right to sell your home
- Ability to choose your own vendors for underskirting and tiedowns
- Protection from retaliatory evictions for exercising these rights

For additional information and resources, visit www.rhls.org

This project is funded in part through the generous contributions of the IOLTA Foundation.

Regional Housing Legal Services
is a nonprofit law firm with unmatched expertise in affordable, sustainable housing and its related components — community and economic development, utility matters and preservation of homeownership. RHLS provides innovative project and policy solutions that help create sustainable communities offering decent, safe and affordable housing for lower-income Pennsylvanians.

Our Project
Regional Housing Legal Services (RHLS) is working with Resident Owned Communities USA (ROC USA), Pathstone, and the Pennsylvania Housing Alliance to make sure that residents of land lease manufactured housing communities are able to preserve their communities when they are going to be sold.

Organization
RHLS is working with manufactured home owners to form a statewide manufactured home owner’s association. Similar organizations in other states have been critical to passing legislation to create more rights for manufactured home owners.

Financing
RHLS is working with the Pennsylvania Housing Finance Agency (PHFA) to provide bridge funding for manufactured homeowners to do preliminary investigations on the feasibility of purchasing their community.

In addition, ROC USA, a non-profit based in New Hampshire, is committed to providing financing for homeowners to purchase their communities when the park owner wishes to sell the park.

Technical Assistance
RHLS is working with Pathstone, which will provide technical assistance to homeowners planning to acquire their community, including:

- Assistance working with community owners and brokers to facilitate sales negotiations
- Due diligence to ensure each community is a good prospect for successful cooperative ownership
- Leadership and organizational development assistance for homeowners, associations and groups of residents
- Assistance with securing financing for resident purchase of communities
- Ongoing technical assistance and training to ensure long-term viability of co-ops

Legal Assistance
RHLS will provide legal assistance to homeowners during the process of buying their community.
